ATTITUDE 35 (10,90m), is the ultimate compact sport cabin RIB. Based on a highly proven hull, she is a true compact cruiser, on full size cockpit bulkheads, low profile cabin with separate head/shower room and a very spacious V berth. Built for single or twin stern drives or outboard engines, up to twin 400 hp, she is a real high performer as well as a very fuel efficient boat thanks to the low drag twin stepped hull.

This boat is ideal for all around cruising, combining the characteristics of a true sport boat and the amenities of a far bigger one.

Customized Digital Control

The digital control panel is displayed on a dark background with a diagonal line pattern. It includes the following elements:

- ANCHOR LIGHT:** A control with 'OFF' and 'FLASHING LIGHT' buttons, both with green progress bars.
- SERVICE BATTERIES:** A display showing '00.00 V' in red.
- FUEL:** A gauge labeled 'FUEL' with a scale from 'E' to 'F' and a '100 %' indicator.
- FRIDGE:** A control with an 'OFF' button and a green progress bar.
- 12V PLUG REAR:** A control with an 'OFF' button and a green progress bar.
- WATER:** A gauge labeled 'WATER' with a scale from 'E' to 'F' and a 'FRESH WATER PUMP' control with an 'OFF' button and a green progress bar.
- TECHNOHULL:** The brand name in a stylized font.
- BOAT LIGHTS:** A section with four controls: 'DECK LIGHTS', 'CONSOLE / ENG ROOM LIGHTS', 'UNDERWATER LIGHTS', and 'SPKR LIGHT', each with an 'OFF' button and a green progress bar.
- Boat Layout Diagram:** A top-down view of the boat with labels for 'BILGE 1', 'BILGE 2', and 'BLANKET'. Below it are controls for 'BILGE 1', 'DECK DRAIN', and 'WC' (toilet), each with an 'OFF' button and a green progress bar.
